

## **HEALTH AND SAFETY POLICY**

- Everyone is entitled to a healthy and safe work place and or work site.
- Injuries and accidents at work are always preventable and are unacceptable.
- Everyone at Copperwood Electrical Contractors Inc. is responsible for the health and safety of themselves and others around them.

Therefore,

1. Everyone regardless of his or her position in the company shall make health and safety the first priority in every action or decision made.
2. Everyone will learn from company's experiences to prevent future near misses or incidents and will take responsibility for his or her actions.
3. We will endeavor to create a work force that exceeds the minimum requirements of health and safety laws in Ontario to lead in reduction of risk and prevention of potential.
4. We are committed to put in place appropriate work practices, training, equipment and tools so that all staff can recognize and control hazards.
5. Our employees will have input on all issues, which could have an impact on their health and safety.
6. The health and safety plan will continually be reviewed and improved to achieve the highest available standards.
7. Copperwood Electrical Contractors Inc. will set targets and goals to monitor staff and corporate performance and prove the policies are working.
